Anita,

Please see attached the DLR and DOJ comments on the BENM and GSENM comms plans. DLR and DOJ would like the opportunity to do a quick, red-flag review of the NOI package once the USFS comments have been incorporated and the documents have been finalized.

Thanks,

Josh

Bears Ears National Monument (BENM) Modification

Summary

- The President has exercised his authority under the Antiquities Act (Act) to reduce BENM to ensure that the Federal land set aside is the smallest area compatible with the care and management of the important objects of historic or scientific interest.
- Those Federal lands excluded from the monument remain in Federal ownership and will continue to be managed by the Bureau of Land Management (BLM) and the U.S. Forest Service (USFS) under applicable laws and land use plans that governed prior to designation of the BENM.

Boundaries and Acreage

- The Federal lands in the modified national monument total approximately 201,876 acres. The proclamation restores 1,150,860 acres of Federal land unnecessarily reserved by the original BENM designation to their prior land management status.
- The areas within the modified boundaries of the BENM will be known as the Indian Creek and Shash Jáa units of the monument and include objects of historic or scientific interest under the Act, such as:
 - Bears Ears Buttes and Headwaters
 - Lime Ridge Clovis Site
 - Moon House Ruin
 - Doll House Ruin
 - Indian Creek Rock Art
 - Newspaper Rock
 - Hole in the Rock Trail
 - Outlaw Trail
 - Cultural resources, such as ancient cliff dwellings, Moki Steps, ceremonial sites, ancient tools and projectile points, remains of dwellings, granaries, kivas, towers, large villages, rock shelters, caves, and a prehistoric road system, as well as petroglyphs and pictographs.
 - Historic resources, such as remnants of sheep herding and farming operations as well as dugways, historic cabins, corrals, trails, and carved inscriptions in the rock.
 - Paleontological resources, such as the fossils remains of fish, amphibians, reptiles, and mammals, as well as dinosaur trackways.

Original Bears Ears NM

BLM: 1,063,670 acres
USFS: 289,066 acres
State of Utah: 112,785 acres
Private: 12,815 acres
Total: 1,478,336 acres

Modified Bears Ears NM

Indian Creek Unit
BLM: 71,896 acres
Private: 4,936 acres
State of Utah: 9,618 acres
Total: 86,447 acres

Shash Jáa Unit
BLM: 97,393 acres
USFS: 32,587 acres
Private: 1,694 acres
State of Utah: 10,663 acres
Total: 142,337 acres

**Non-federal lands are within the external boundary are not part of the national monument but are included for reference purposes.

Proclamation Changes

Protects Grazing:

- Provides that current authorizations for livestock grazing – including the levels of grazing authorized – would not be affected or curtailed because of the monument designation.
- Provides that the Secretary may allow for active, science based vegetation treatment, particularly for pinyon-juniper removal, which will improve grazing management. This will allow for a responsive outcome-based grazing approach for permittees within the monument, allowing greater flexibility in livestock management decisions.

Opens Roads:

- Clarifies that pending preparation of a transportation plan for the national monument, the Secretary may allow motorized and non-motorized mechanized vehicle use on roads and trails that were in use prior to BENM designation and allow maintenance of the roads.

Increases the Tribal Voice:

- The Secretary and President support Congress granting tribal co-management authority for the Shash Jáa unit of the National Monument
- However until then, the Proclamation provides that the Bears Ears Commission will continue provide guidance and recommendations for the Shash Jáa Unit of the monument, and expands the membership to include a Native American San Juan County Commissioner elected by the majority-Native American voting district in that County.

Grand Staircase-Escalante National Monument (BENM) Modification

Summary

- The President has exercised his authority under the Antiquities Act (Act) to reduce the Grand Staircase-Escalante National Monument (GSENM) in order to ensure that the Federal land set aside is the smallest area compatible with the care and management of the important objects of historic or scientific interest.
- Those Federal lands not included in the new monuments remain in Federal ownership and will continue to be managed by the Bureau of Land Management (BLM) under applicable laws.

Background

- In the twenty years since designation of the GSENM, the objects identified have been more thoroughly examined and mapped, which offered the opportunity to examine the significance of the objects previously identified and to determine the proper size of the reservation necessary to protect those resources.
- The areas within the modified monument boundaries will be known as the Grand Staircase, Kaiparowits and Escalante Canyons units of the monument. This will include the highest concentration of fossil resources, important landscape features such as the Grand Staircase, Upper Paria Canyon System, Kaiparowits Plateau, Escalante Natural Bridge, Upper Escalante Canyons, East Kaibab Monocline (Cockscomb), Grosvenor Arch, historic resources like Old Paria Townsite, and Dance Hall Rock, as well as relict plant communities such as No Mans Mesa.

Boundaries and Acreage

- The original GSENM monument boundary included approximately 1,865,837 acres of Federal land, is reduced by approximately 861,974 acres. The remainder encompasses approximately 1,003,863 acres of federal land in the three units as provided below.

Grand Staircase Unit

BLM: 209,993 acres
Private: 1,990 acres
Total: 211,983 acres

Kaiparowits Unit

BLM: 551,034 acres
Private: 83 acres
Total: 551,117 acres

Escalante Canyons Unit

BLM: 242,836 acres
Private: 405 acres
Total: 243,241 acres

**Non-federal lands are within the external boundary are not part of the national monument but are included for reference purposes.

Proclamation Changes

Protects Grazing:

- Provides that current authorizations for livestock grazing – including the levels of grazing authorized – would not be affected or curtailed because of the monument designation.
- Provides that the Secretary may allow for active, science based vegetation treatment, particularly for pinyon-juniper removal, which will improve grazing management. This will allow for a responsive outcome-based grazing approach for permittees within the monument, allowing greater flexibility in livestock management decisions.

Opens Roads:

- Clarifies that clarifies that pending preparation of a transportation plan for the national monument, the Secretary may allow motorized and non-motorized mechanized vehicle use on roads and trails that were in use prior to BENM designation and allow maintenance of the roads.

WO-400 Team,

Here is your Friday Information Update:

Front Hallway:

- There was a Bob Wick sighting today and then I got to catch up with him finally! Bob was in DC this week and had the chance to do a national live webinar on Wednesday via Zoom. His presentation gave a visual tour of BLM managed rivers and trails and had a great DC and national turnout!
- Yesterday, the House passed a two week extension of the CR by a vote of 235 193 providing funding through December 22, 2017. The Senate passed the extension by a vote of 81 14. The CR extension bill was sent to the President for his signature.
- On Monday December 4th the President issued the Presidential Proclamation Modifying the Grand Staircase Escalante National Monument and the Presidential Proclamation Modifying the Bears Ears National Monument.
 - The Proclamation Modifying the Bears Ears National Monument modifies the boundaries of the 1.35 million acres of Federal lands to 2 areas: the Shash Jáa area and the Indian Creek area; and excludes from its designation and reservation approximately 1,150,860 acres.
 - The Proclamation Modifying the Grand Staircase Escalante National modifies the boundaries of the 1.7 million acres of Federal lands to 3 units: the Grand Staircase, Kaiparowits, and Escalante Canyons units of the monument (1,003,863 acres). Any lands not within the boundaries

identified on the accompanying map in the Proclamation are excluded from the monument.

- On Tuesday December 5th, in accordance with the Presidents April 26, 2017 Executive Order, Secretary Zinke released the final report outlining recommendations he made to the President on national monument designations under the Antiquities Act.
 - In addition to Bears Ears and Grand Staircase Escalante, the final report included recommendations to modify the boundaries and management of Cascade Siskiyou, and Gold Butte National Monuments.

Calendar:

- Robin has put together a WO400 Holiday Acting Calendar so you can see who will be available and acting over the holidays (attached). It should also be on the 400 shared calendar.
- Our 400 Holiday Retirement Party is set! We are looking forward to a cookie exchange, games, and presenting some well deserved awards. December 12th from 11:30-1:30 (EST) Please join your coworkers to celebrate the holidays, the end of year, and Betsy Wooster, Youth Program Lead, who is retiring in the end of December. Remote staff will be joining us at 1:00 for some special presentations.

Kudos: I have three big thank you's this week

- Mara - thank you for putting together the very large and tedious National Monument Review binder of materials we submitted and for making it look good!
- Rachel - thank you the binder of all the telework agreements. You both jumped in to help when we are short staffed on the admin front, and then went above and beyond.
- I think we should thank our AD when we get a chance (well at least I'd like to :)) for keeping our directorate running smoothly through all of these major changes. Chris does a lot and buffers a lot that we don't always get to see or hear and sometimes we forget to thank the people doing that hard work (because it is hard). Thanks Chris!

Have a great weekend, keep up the great work, and have fun in the first snow (DC'ers)!
